Gurugram, Haryana, India · Immediate joiner

PROFESSIONAL SUMMARY

Full-stack software engineer with **7+ years** designing and delivering scalable, high-performance web applications. **3x Top Performer at Virtusa**. Led **15+ engineers** on a **Fortune 500 fintech** platform (Shift4 Payments): **~40% faster load times**, **~25% API performance gains**, **~20% higher team delivery efficiency**. Strong in **Angular, Ember.js, TypeScript, Node.js, Nest.js**, and **cloud/DevOps** (AWS, Docker, Kubernetes).

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, PHP, SQL

Frameworks & libraries: Angular (v2–17), Ember.js, Node.js, Nest.js, RxJS, NgRx, Semantic UI

Cloud & DevOps: AWS, Docker, Kubernetes, Vercel, CI/CD pipelines, LaunchDarkly, Datadog

Tools & practices: REST APIs, Git, Figma, Swagger UI, BrowserStack, Agile/Scrum, code review

EXPERIENCE

Freelance full-stack consultant · Self-employed

Feb 2025 – Feb 2026 · Gurugram, Haryana, India

- Delivered **5+** end-to-end client projects (e-commerce, fintech, SaaS) with **100% on-time** delivery.
- Architected **Angular** dashboards, **RESTful APIs** (Node.js / Nest.js), and **WordPress** integrations from requirements through production.
- Owned full SDLC: client communication, architecture, deployment on **Vercel** and **AWS**.

Lead software engineer (promoted 3x) · Virtusa — Shift4 Payments (Fortune 500)

Dec 2021 – Dec 2024 · Gurugram, Haryana, India

- Spearheaded **Angular** and **Ember.js** frontends for an enterprise payment platform; **~40% faster loads** via lazy loading and bundle optimization.
- Improved **REST API** response times **~25%** with custom HTTP interceptors and caching; higher system throughput.
- Mentored **15+ engineers**; coding standards and reviews contributed to **~20%** gain in team delivery efficiency.
- Built reusable **Angular / Ember** component libraries: **~30%** less duplicate UI work across **3** major programs, **~35%** fewer reported UI defects.
- Partnered with **Node.js / Nest.js** teams on API integration; led sprint planning for **3** concurrent feature releases.
- **Kubernetes, Docker, AWS, Datadog, LaunchDarkly**; unit tests and **BrowserStack** cross-browser validation.

Senior developer · I Developing Solutions Pvt. Ltd.

Jun 2021 – Nov 2021 · India

- Led a **4-person** frontend team on **Angular** and **Ember.js** apps; improved UI responsiveness and engagement **~20%**.

- REST integrations and component-based architecture; reduced maintenance overhead.

Web developer (promoted from intern) · Incredible Developing Solutions

Oct 2018 – May 2021 · Pathankot, Punjab, India

- **Angular 10** and **Ember.js** apps for enterprise clients; stronger UX and front-end scalability across production releases.
- Reusable UI components and third-party APIs; ~25% shorter development cycles.
- Mentored 5 junior developers; multi-developer **Git** workflows for stable releases.

SELECTED IMPACT

- **3× Top Performer** at Virtusa — consistent high-impact delivery.
- **Fortune 500 fintech**: page load and API optimizations at scale; **15+** engineers mentored; **5+** freelance engagements delivered on time.

EDUCATION

Bachelor of Science, Computer Science · Guru Nanak Dev University · Aug 2014 – May 2017
